Letter of Recommendation

to whom it may concern

Dear Concern,

Md. Emran Hossain has been a part of our Endgame Program for the past 2 months.

During this period, he has also worked on the project **Revive Health** with the team **Developers Zone** and performed exceptionally well under pressure. His technical and communication skills are excellent, and we found him very curious and dedicated.

We can highly recommend him for the opportunity in the web development domain.

During the project, he was exposed to the various activities in this domain and he is well suited to the challenges it provides. He is a talented hard worker, we wish him all the best in his future endeavors.

If you need any additional information, please contact us at **web@programming-hero.com**
