Experience

I'm learning to web development for around two years. During this time, I've learnt many topics and technologies from different sources. I did a professional MERN stack development course with Programming-Hero and successfully I've passed it. Here you can see this Certificate . I've also worked with programming hero as End game member. It's like a shadow internship. Here I got Recommendation letter .

Language Proficiency
Fluent in Bangla, Comfortable with English

Additional Skills
Problem solving, Team Collaboration
